

Easily Manage Docs, Approvals & eSignatures for Vendors, Owners & All Your Stakeholders

- Built for oil & gas document management, PakEnergy Exchange gives your team a complete web-based portal to manage all of your document sharing & eSignature needs
- Add a smart workflow to any document to accelerate AP invoices, DO signatures & more
- Social media-style interface brings your team securely together on the cloud with vendors, investors & interest owners
- “Friend” any Exchange user to connect or add new users in less than 5 minutes

PakEnergy Upstream Software

Designed for speed and reliability, PakEnergy's upstream software suite is the only modern, end to end and truly integrated platform spanning accounting, owner relations, division orders, revenue billing and distribution, land and production. An ideal choice for oil & gas operators of any size as well as mineral & royalty investors.

Our Solutions Cover All Your Bases

Financials, AR & AP Automation

Confidently Close Your Month Faster

- Complete upstream accounting package with financials, accounts receivable & accounts payable
- Automate AP invoice processing with a web-based Vendor Portal where vendors can submit invoices
- Route internally for eSignature, saving time, reducing G&A & increasing vendor satisfaction
- See full audit trails for creation and approval of entries (who changed what and why)
- Streamline processes for joint interest billing & authorization for expenditures
- Produce financial statements & reporting for compliance, board reviews or internal analysis with ease
- Unlimited accounts & cost centers with ability to consolidate across companies
- Build stunning real time reports & interactive dashboards in seconds

Revenue Billing & Distribution

Easily Bill, Pay & Net Owners

- Revenue Billing Cycle is an easy 5 step process that allows you to bill, pay or net your owners
- Create any internal or external report
- Dramatically reduce manual revenue data entry with powerful import tools for common industry formats like CDEX
- Accelerate monthly distributions with support for printing & mailing large check runs

Owner Relations & Division Order Management

Keep Your Interest Owners Happy

- Easily manage all of your owners and decimals with powerful division of interest tools that integrate with PakEnergy accounting
- Eliminate time & cost of physically mailing DO letters with smart technology that automatically detects ownership changes and sends digital DO letters for eSignature
- Automate owner relations tasks with a web-based Owner Portal where owners can eSign division order letters, view revenue statements & download 1099s to save time, reduce G&A & increase interest owner satisfaction
- Outsource OR management to our state-of-the-art call center
